

Slideshow Friday July 14<sup>th</sup> 7:00 pm. 1995

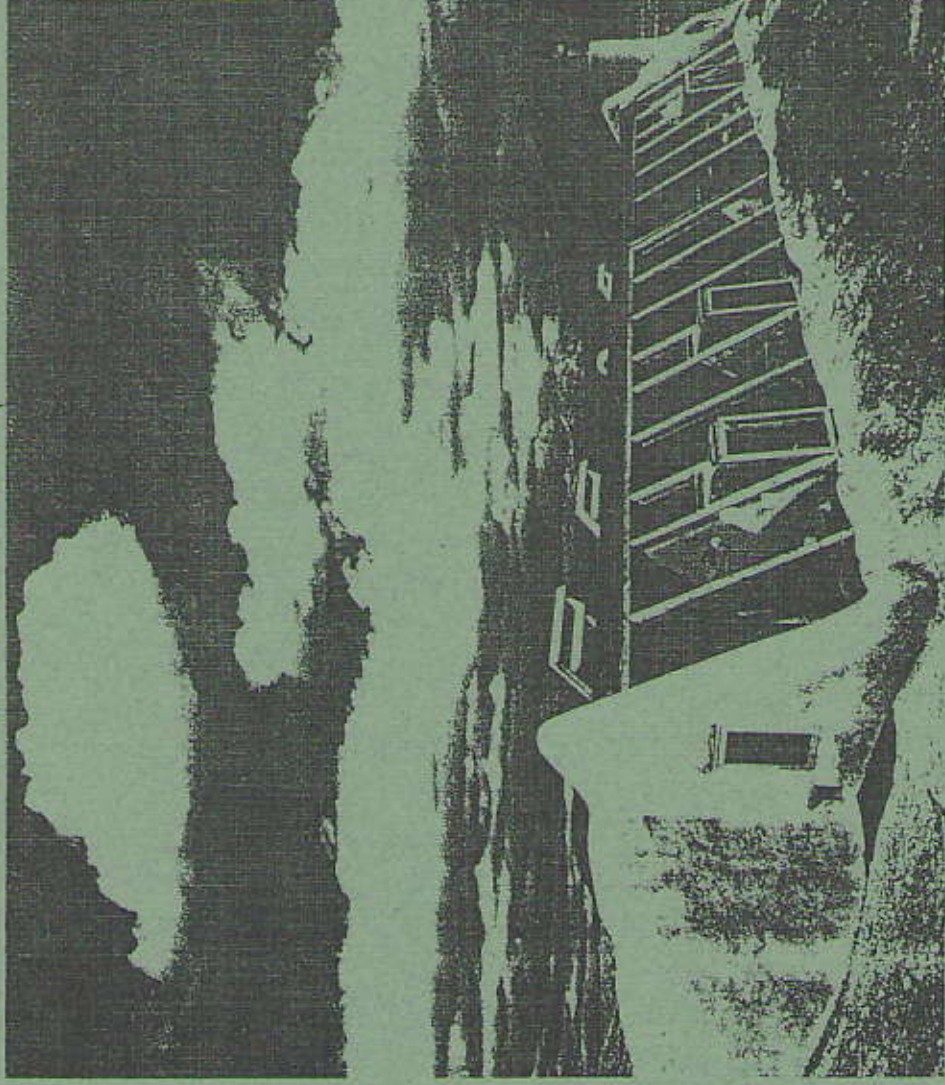

Athens County Public Library

## Owner-Built, Passive Solar Homes

2 hours of slides + lecture

To share with landowners and development workers options available to create low cost, energy efficient housing

Primary focus will be "Earthships" - New Mexican earth sheltered homes built with recycled materials such as tires, bottles, and aluminum cans. Also a few slides of strawbale construction, cob, ferro-cement, and rammed earth.

Sponsored by  
Rural Action

"People must have access to resources for meeting their own basic needs. When we allow food and shelter to become commodities, we abdicate our most basic rights; and our freedom can be bought or sold as a result." - James Wynn founder of TERRAFORMS

A permaculture design/land stewardship consultancy, now based in Athens Ohio.
